Professional Summary

Motivated and detail-oriented Computer Science undergraduate looking to gain practical experience in software development. Familiar with multiple programming languages and fundamental concepts in computer science. Able to solve problems with a structured approach and deliver functional solutions with persistence. Eager to learn, improve, and contribute to a dynamic team while developing professional skills.

Core Competencies

Technical Skills

- Programming Languages: C, C++, Java

- Basic application development (Android Studio)
- Basic understanding of front-end technologies
- Fundamental knowledge of Data Structures & Algorithms.

- Database: Firebase, MySQL
- Operating Systems: Linux, Windows

Soft Skills

- Problem-solving & debugging

- Adaptability & willingness to learn

- Teamwork & collaboration

- Persistence & structured approach to tasks

Projects

- Konnect - A Community application
  Android Studio, Java, Firebase
  Developed a basic community application, inspired by **Reddit**, allowing users to post, comment, upvote/downvote content, along with a built-in chat system. Implemented community features like creating social groups and media, in addition to user authentication and real-time data fetching.
